GUTTER DOPE

VOL 3 NO3 SAN ANTONIO RADIO CLUB MARCH 4 1955

CLUB MEETN FRIDAY NITE

MEETING
TIME--8:00 PM MARCH 4,1955
PLACE--Woodlawn Lake Clubhouse
(Cincinnati Ave. just west
of Zarzamora)

Although Bill Case has tried to keep interesting programs booked for meetings, there are times when cancellations occur, or it seems impossible to secure something interesting. There will be no program this week, but for those of you who failed to attend last club meeting, you surely missed a very interesting program. Willard Carmack W5FND, gave a demonstration on Ear Emitted Speech, which actually was remarkable and amazing. The talk was very informal, but extremely enlightening.

Bill promises some very hot programs for the near future.

STEN CONVENTION

Several STEN officers were in town last Sunday, from Austin, Corpus Christi, Kerrville, etc. for pre-convention meeting for the STEN convention May 28-29 at Kerrville. San Antonioans present at the meeting, held at Wolf's Inn, were W5BE, W5THU, and W5WXT.

Up to printing time we did not know what prizes are offered besides a Globe Scoutxmtr. Better get your reservations and pre-registrations in early---and remember the Friday nite Lone Star Derbyr

Registration for the convention is $3.50 and $.75 for the friday nite BBQ and beer

TRANSMITTER HUNTS

Seems like every transmitter hunting week-end lately, brings on some much needed rain. The last two hunts have been cancelled due to said rain. We are hoping for sunshine and fine weather this coming Sun. If the weather is good we will be at Olmos Park promptly at 1:30 PM ready to hunt and have picnic afterwards.

Come on out and hunt, gang.

GUTTER SWEEPIN'S

Mr. & Mrs. W5FND busy moving into new home on the North side--John W5VI, sporting a new mobile on 75 mtrs. and is also at new QTH out on Fredericksburg rd.---W5EPB, Doc, busy building up a new "Q" multiplier.----W5THU just installed a new Elmac Transciter in his mobile.---Wonder if Bob, JHH has his car painted yet and how about the 24 V. system, Bob?--The last we heard Jack GKI, was about ready to fire up that ART-13 mobile, but we still haven't heard it---Our emergency Net NCS KQG, off the air due to laryngitis Better now---Art, W5EVT, having lots of fun operating his Viking Ranger---- W5LVE, Johnny, busy mounting his put-put on a new trailer----Welcome (almost visitors) at last meeting were W5JLW and W5UMR.
